Car Stops

- These easy to install Car Stops can help you control parking safety....no broken concrete stops or dangerous rods exposed.
- No costly painting or maintenance of Car Stops
- Lightweight -- easy to remove when your needs change -- move for snow removal or seal coating.
- Solid recycled plastic construction will keep Car Stops from yielding to moisture or rotting.
- Warranted against breakage for one full year.
- Use Model CS-33-B for Blue Handicap Parking spots.
- Dimensions are 72"L x 5³/₄"W x 3³/₄"H. 1/2" mounting holes.
- Hardware NOT included.

	Vestil No.	Description	Color	Net Weight (lbs)
	CS-33-GRAY	5 ³ / ₄ "Wx72"Lx3 ¹ / ₂ "H	Gray	40
	CS-33-yellow	5 ³ / ₄ "Wx72"Lx3 ¹ / ₂ "H	Yellow	40
	CS-33-Blue	5 ³ / ₄ "Wx72"Lx3 ¹ / ₂ "H	Blue	40
	CS-AK	Asphalt Hardware Kit - 3 Spikes & Butyl Tape		3
	CS-33-KIT-3	Concrete Hardware Kit - 3 Bolts & Anchors		4

Rubber Wheel Chocks

- Laminated Rubber Wheel Chock

Long life, less cost! Cord reinforced rubber provides a sure grip on concrete or paved surfaces.

Curved surface snugly fits tires. A popular chock - thanks to functional design and durability. LWC-14

- Rubber Wheel Chock

Economical nylon reinforced molded rubber provides sure grip traction. Rubber resists tearing, abrasion, ozone weathering, etc. Safety engineered to prevent sliding.

Complete with cadmium plated eyebolt. handle is available.

RWC-8

- Molded Rubber Chock

Maximum traction between tires and parking surfaces make this chock applicable to many surfaces. Stair-Step edges grip tire and prevent movement without gouging or cutting. Handle grip for easy handling.

- Extruded Rubber Chock

Grip increases as pressure increases 1/4" deep grooves improve traction. Ideal for trailers, airplanes, and small trucks. Double as safety wedge

Material Handling - Bumper

to keep drums, paper rolls, and cylinders from rolling. Available any length to 6 ft. RMC-4

- Airline Chock

This chock is suitable size for small and large aircraft. Polypropylene rope with reflectors connect the chocks and provide excellent visibility. This chock will provide many years of service. AC-13

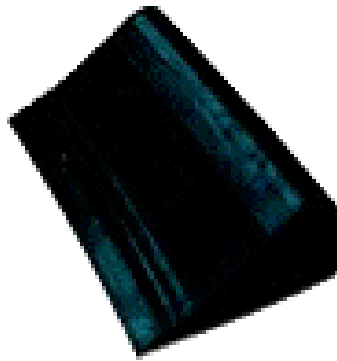

Rubber Wheel Chocks

Specialty Molded Bumpers

Manufactured from fiber reinforced prime rubber containing nylon and polyester, all models have predrilled, countersunk mounting holes for easy installation, and are drilled to accept 3/4" anchor bolts. Anchor bolts are easily installed through existing holes in dock.

- Economical
- Unique design and construction achieves high impact resistance and long life.
- Immune to all weather conditions.
