

Material Handling- Guard Rail

Steel guard rails

Material Handling- Guard Rail

Steel guard rails are designed to provide visual and physical barrier between traffic and work areas. For protection against accidents due to lift trucks or other mobile equipment in dock areas, aisles, around special equipment, or offices, conveyors, water mains, valuable equipment and personal. Modular system is easily expanded or moved as needed. For use indoor, outdoor or mezzanines.

Lift-out rails. Lift-out rails slide into columns and lift out for easy access. Ideal for used in facility areas which need protection yet require accessibility.

Columns are 4"x4" or 4-3/4"x4-3/4" tube manufactured from high strength steel. Baseplates are two column heights 18", 43" for individual plant needs.

STC No.	Description
Guard Rail	
CTR0388-1	43" Guard Rail
CTR0388-2	55" Guard Rail
CTR0388-3	67" Guard Rail
CTR0388-4	79" Guard Rail
CTR0388-5	91" Guard Rail
CTR0388-6	103" Guard Rail
Lift Out Rail Adapter Plate	
CTR0389	Rail adapter plate
Columns	
CTR0290-1	18" Standard Column
CTR0290-2	18" Offset Column
CTR0290-3	43" Standard Column
CTR0290-4	43" Offset Column
CTR0290-5	1/2" x 1-1/2" Bolt with nut and lock washer
CTR0290-6	5/8" x 4" Anchor
